- Subtract \$0.003 for each letter/card that complies with the full-service intelligent Mail option requirements (effective Nov. 29, 2009).
- Letters that weigh 3.5 ounces or less and meet one or more of the nonmachinable characteristics in DMM 201.2.1 are subject to the \$0.20 nonmachinable surcharge.
- The Maximum weight for machinable letter preparation is 3.3 ounces.

- The card rate applies to each single or double postcard when originally mailed; reply half of double postcard must be designed for reply mail purpose only.
- For weights over 3.5 ounces, see flat—size rates.
- Flat-size pieces with certain characteristics (see 301.1.3 through 1.4) are subject to parcel rates.

STANDARD MAIL (A)

- Flat-size pieces with certain characteristics (see 301.1.3 through 1.4) are subject to not flat-machinable rates.
- For ERC flats with a detached address label, add \$0.015 per piece.
- For pieces weighing more than 3.3 ounces, each piece is subject to both a per piece rate and a per pound rate. Multiply the number of pieces in the mailing by per piece rate. Multiply the number of pounds of the mailing by per pound rate. Add both totals.
- ECR letters that are not automation-compatible and barcoded (201.3.0) are mailable at the flat-size rates (243.6.4 or 243.6.6). Mailers may not pay ERC flat rates and claim the DDU discount for letter-size pieces.
- For pieces weighing more than 3.3 ounces, each piece is subject to both a per piece rate and a per pound rate. Add both totals. **(Request Passkey Full Rate Chart)**
- Per piece rate for ECR letters and Automation letters that weigh more than 3.3 ounces but less than (or equal to) 3.5 ounces includes a discount that equals the applicable flat-size rate (3.3 ounces or less).
- Pieces over 3.3 ounces, see standard mail not flat-machinable rates
